

Is your Child Struggling to Express their Emotions? Do they love art and creative play?

Performance Pediatrics & Flora and Associates are partnering together to offer our families an exclusive therapeutic art group.

What is Art Therapy?

Art therapy allows children to use the creative process of art making to improve and enhance the physical, mental and emotional well-being while providing them with a safe way for self-expression, develop interpersonal skills, manage behavior, reduce stress, increase self-esteem. Join us Friday's this Fall for this exceptional offer!
