

Summer Handwriting Groups

at

Performance Pediatrics
Pediatric Occupational, Speech and Physical Therapy

In addition to our Extended School Year program this summer, Performance Pediatrics will be offering a SUPER summer handwriting program.

We know that most of the time, students will react to pencil and paper work by saying 'this is BORING!'... really meaning, 'this is hard and I need help'. Handwriting is an important skill to master in order for children to participate in one of their most time consuming occupations- education. Challenges with handwriting can ultimately impact a child's feelings towards school. This is why we introduce handwriting skills in a fun, playful, multi-sensory environment. It is our belief that children learn best through play and building positive relationships. Your children will be building core, upper body, and hand strength through use of our sensory gym equipment, learning spatial relations through song and dance, and learning letter formation through movement and tactile means. Our therapists are certified in, and utilize the Handwriting Without Tears Program. This program emphasizes a **multi-sensory approach to learning**. We are also familiar with FUNdations and can carry over what your child may have already learned in school through that curriculum.

This program is aimed towards children entering 1st and 2nd grade with an emphasis on lower case letter formation and orientation to the line. Word and letter spacing will also be addressed. All done through multi-sensory learning.

Handwriting groups run from July 8th through August 1st from 2-3pm.

Space is Limited! Call for pricing details! (973) 862-6377

Grab your mask and your cape and get ready to defeat those handwriting frustrations!

Be A Handwriting HERO!
(superhero costumes encouraged)
